

PROMOTION 2024

FOR LATVIA, LITHUANIA, AND ESTONIA

UNLEASH YOUR FULL POTENTIAL

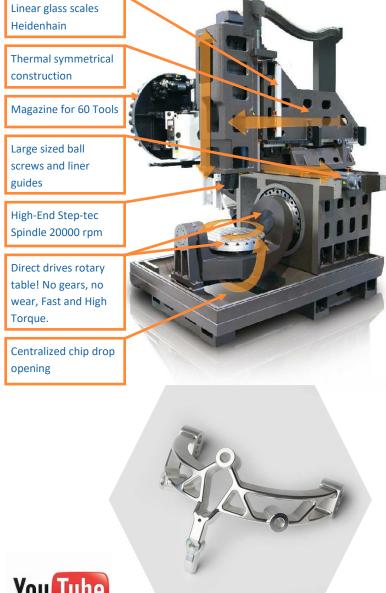

It brings greater machining capacity and better machining performance. With the large swivel range from -65° to + 120° and the ability to load heavy parts up to 450 kg onto the tilting, swiveling table, these solutions allow users to manufacture a wider range of parts and tools than any other machine currently on the market. It is based on a stiff and stable C-frame construction made of cast iron. Thanks to large guideways, a Direct drive double side-supported rotary table and an optimum chip removal rate, this machine delivers quality on parts and reliable operations.

MIKRON MILL E 700 U

PROMO PRICE: 294 350 EUR
